

WANT TO KNOW WHAT WE'RE THANKFUL FOR?

As we continue to focus on setting the Benchmark for vendor partnerships across our industry, Harrison Contracting dedicated the month of November to Vendor Appreciation! We don't take for granted the attention to detail required to organize products, services, pricing, and logistics each and every day.

That's why we wanted to take a step back and show our gratitude to our vendors for always being there and going above and beyond to support our office staff and field crews. We appreciate the relationships that have been cultivated and we look forward to continuing these partnerships for years to come!

TEAM PLAYER SPOTLIGHT

Salvador Ayala

We would like to recognize Salvador Ayala for his continued hard work and dedication to HCC! Salvador joined the team back in 2011, and is currently working as a Foreman for our New Construction division.

Salvador is known for his positive, 'can-do' attitude and always having a smile on his face. He pays attention to the smallest details to ensure that every project is well executed and genuinely cares about delivering quality work. In his 12 years with the company, he's grown to be a wonderful asset to the Rely on RED team, and we look forward to having him on our team for years to come!

Congratulations Salvador!

HCC PRIDE

Harrison Contracting supports the Home Depot Foundation!

Members of the HCC team visited Palm Springs, CA to support the Home Depot Foundation in their efforts to improve the lives and homes of US veterans. In total, more than 400 volunteers, including HCC, helped to build furniture, plant gardens and landscaping, painted, created a food pantry, and more, to enhance and improve The Salvation Army and Veterans Village of Cathedral City.

The Home Depot Foundation is a nonprofit working to assist US veterans, support communities that are impacted by natural disasters, and providing training for tradespeople to fill the labor gap. HCC is grateful to partner with the Home Depot foundation to help serve those who have served us!

RECAP ON REPAINTING

Multi-Site Commercial Painting:

We're so excited to begin working with our newest client, GAP Inc! In preparation for the upcoming holiday season, we will be refreshing multiple stores across the country, including The GAP, Old Navy, Athleta, Banana Republic, and associated outlets. With our nationwide reach, our Multi-Site team is managing the logistics for this repainting program so that all locations look their best in time for the holiday season!

Direct to Owner (DTO): The Jasper County Farmer's Market in Ridgeland, SC has never looked so good! Our DTO team recently repainted the full interior and exterior of this mixed-use venue, which hosts events like family reunions, company picnics, wedding receptions, and other local community events. Our favorite part of this project was repainting the RED metal roof - can you guess why?

NEW CONSTRUCTION NEWS

Phase One at Assembly Atlanta, a premiere film studio being built in Doraville, GA is nearly complete! Our New Construction crews are diligently working on the finishing touches, like adding the stage numbers to each building. Each number stencil measures approximately 22 feet tall and 38 feet wide!

Working with Bailey Construction, our crews have applied over 10,000 gallons of paint spanning over 40 different colors! HCC is grateful to be a part of this project and we are looking forward to Phase Two!

DID YOU KNOW...

In 2023, HCC applied over 300,000 gallons of paint, covering more than 90 million square feet of wall space. That's enough paint to apply an 8 inch stripe around the equator of the earth!

TO OUR FACILITY MAINTENANCE CLIENTS,

Thank you for being amazing partners! We value the trust you have put in us to maintain your stores and we appreciate the relationships that we have with each of you. Our goal is to make sure that you can focus on auto parts, office supplies, or groceries, not leaking pipes or potholes - because we've got that covered! You've allowed us to help stores in over 1,000 cities this year, and we look forward to many more years of partnership!

From your Facility Maintenance Team!

INDUSTRY TRENDS

As trends are ever-evolving, companies across the commercial industry are predicting the top paint color choices in 2024 will be soothing shades that evoke comfort, coziness, and tranquility. This includes an array of soft blues, greens, yellows, as well as a few darker shades like charcoal, chocolate brown, and dark olive.

Another trend we see in our future is using multiple colors in commercial spaces. Sherwin-Williams has created color combinations that work well for different commercial segments like offices, retail, healthcare, education, and more. They recommend pairing greens and blues, reds and purples, and 'deeps & darks', which consists of dark grays and blacks paired with deep greens and browns.

Whichever color trend fits your aesthetic and brand identity the best, HCC is ready to help ensure your commercial building is well painted and leaves a lasting impression!

Our Team

In an effort to be involved and supportive of our local community, our Atlanta team has participated in a number of local events such as the Villa Rica Gold Rush Parade that celebrates the town's history, as well as Thrill at the Mill, a 'trunk-or-treat' Halloween experience geared towards children!

Our Dallas team enjoyed a nice lunch with local paint suppliers to support our effort of showing appreciation and gratitude for our vendors. We look forward to continuing these partnerships in the future!

Our Tampa team is proud to have participated in a local charity golf tournament in central Florida, which raised over \$53,000 for New Hope for Kids, an awesome non-profit that supports children with life-threatening illnesses.

ON THE TRACK WITH HCC

Harrison Contracting Company showed up and showed out at the 2023 Motul Petit Le Mans race at Road Atlanta! We hosted HCC Family Day and with over 130 Harrison Contracting team members attending, there was a sea of red to cheer on Ashton Harrison, Kyle Marcelli, Danny Formal for the final race of the IMSA WeatherTech SportsCar Championship! We are so thankful for all of our team members and all that they do to help establish HCC as a benchmark in the commercial painting industry!

Tommy's Tricks of the Trade

Want to know how to determine what type of paint roller cover to use? Check out this tip from a well-seasoned commercial painter with 40+ years of experience in the industry!

Tommy's Trick: "There are different paint roller covers that are recommended for painting a variety of surfaces."

- 1 1/2 inch roller - best for split-face block
- 3/4 inch roller - best for textured surfaces
- 1/2 inch roller - best for semi smooth surfaces
- 1/4 or 3/8 inch rollers - best for smooth surfaces
- Foam rollers - best for painting steel or glass

Savvy Safety

Our Safety team recently conducted a 'Best Barricade' contest for our field crews as an informative yet fun reminder on proper barricade usage for a job site. And the Best Barricade goes to... the Watercolor project in Destin, FL, managed by superintendent, Russell Kent!

A proper barricade is an important part of any jobsite setup, as they aid in keeping the general public out of harms way by preventing them from entering a live site that includes hazards like lift equipment, pressurized tools like paint sprayers and pressure washers, and other items that could cause harm.
